PROJECTS

- Music Player: This is made using extensive use of HTML and CSS and it is a responsive webpage. The important components of this music player include --- Home Screen Basic layout, Home Screen Carousel, Bottom Music Player, and Single Playlist Screen.
- To-do List App: This is made with the help of Node.js. In this app, user can create to-do lists, where they can add list of tasks. The Task created by the user then should be stored in the Database.
